

## PHP FORM VALIDATION:

Team1:

### HTML FORM:

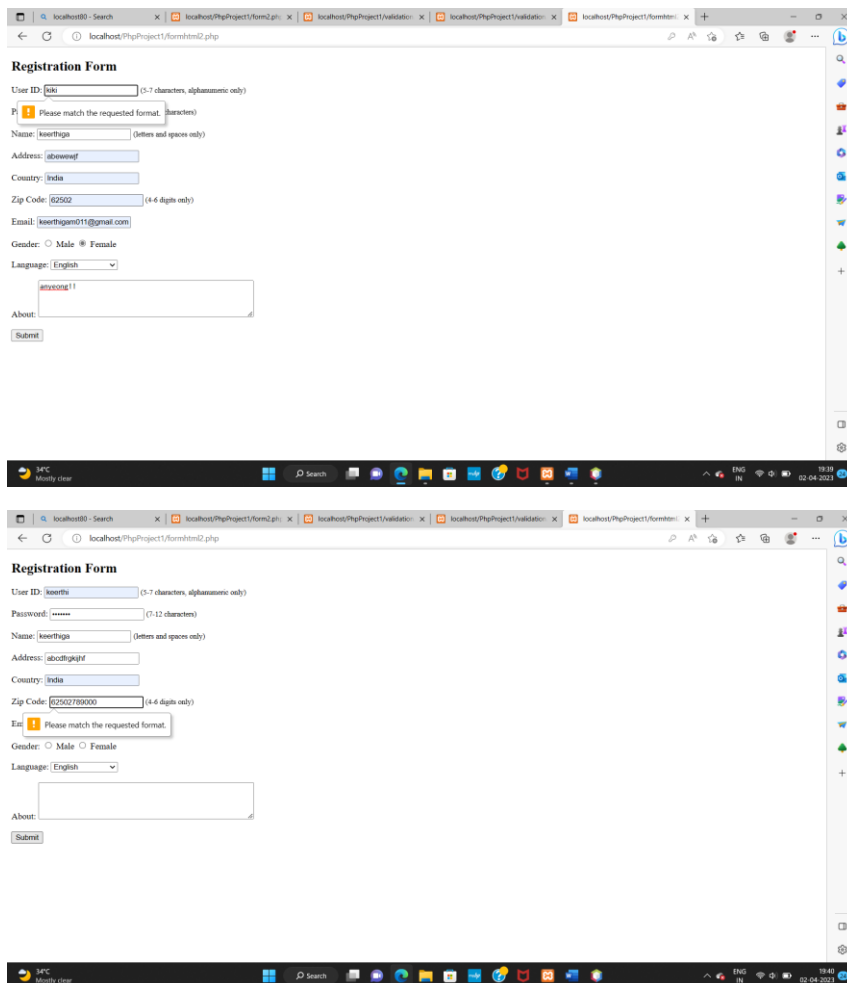

The screenshot shows a web browser with multiple tabs. The active tab is 'localhost/PhpProject1/formhtml2.php'. The form is titled 'Registration Form' and contains the following fields:

- User ID:  (5-7 characters, alphanumeric only)
- Password:  (7-12 characters)
- Name:  (letters and spaces only)
- Address:
- Country:
- Zip Code:  (4-6 digits only)
- Email:
- Gender: ☐ Male ☒ Female
- Language:
- About:

A 'Submit' button is located at the bottom of the form.

### PHP VALIDATION:

The first screenshot shows the registration form with a validation error message: 'Please match the requested format.' This message is displayed next to the Password field, indicating that the password does not meet the required criteria (7-12 characters).

The second screenshot shows the registration form with a validation error message: 'Please match the requested format.' This message is displayed next to the Email field, indicating that the email address does not meet the required criteria.
